

# Gaurav Gogia

Student at Microsoft Virtual Academy

desmondmiles36@gmail.com

---

## Summary

A passionate student who enjoys technology & good literature. Curiosity coursing through his veins, almost anything new or old or different is worth experimenting or "checking out" for him. After all, discovery demands experimentation. With a vast interest list while secure, scale-able and real-time development being at the microscopic level his formula of living is "Work it: Harder, Make it: Better, Do it: Faster, Makes us: Stronger"

---

## Experience

### **Executive at ACE - Technical Society of VSIT**

August 2016 - Present (6 months)

Providing the President & Vice President with suggestions and new ideas that can be implemented.

Interpreting plans, policies to everyone else in the organization. Keeping things running and making sure that all the policies and ideas are implemented.

Volunteering for the technical aspects of the organization which fall under my domain and teaching the same to all who aspire to learn the same.

**Go**

**MongoDB**

---

## Volunteer Experience

**Event Coordinator at ACE - Technical Society of VSIT**

April 2016 - Present

Eutopia is an intra-college event series organised by ACE, The Technical Society of VSIT which aims at encouraging growing importance of problem solving skills and computational thinking in industry.

My role :

1. Problem Setter Assistant: I was responsible for setting real world computer science problems currently which are being faced by industry. The scope of problems set was limited to the applications of graph theory, recursion and number theory in cryptography.
  2. On-Site Management: Coordinated with other members of team and faculty for the smooth flow of various activities.
